ASPIC Chunks in Jelly

Available cansizes: 200g and 400g.

Available varieties: Chicken/Turkey/Vegetables, Lamb/Chicken.

Our Aspic Formula represents a Premium product that combines a complete, high palatable food to the fact that it provides everything the dog requires for its well-being.

The chunks of the Aspic formula do not contain cereals and are embodied in a transparent and tasty jelly.

Typical analysis	Aspic Chunks in Jelly
Moisture	82,0%
Crude protein	8,5%
Crude fat	5,0%
Crude ash	3,5%
Crude fibre	0,5%
Copper sulphate (Cu)	1,9 mg/Kg
Vitamin A	1.310 UI/Kg
Vitamin D3	160 UI/Kg
Vitamin E	10 mg/Kg

The list of typical ingredients of these products includes, for the different varieties, the following categories: Meat and meat-by products, fish and fish by products, vegetables, minerals, sugars.

The following feeding instructions, related to the animal body weight, are recommended:

Dog Body weight [KG]	Daily amount
5	500g
10	850g
15	1.150g
20	1.400g
30	1.900g
40	2.350g

The recommended approximate amount is for adult animals in good health and regular physical activity. These amounts should be adjusted in compliance with the body weight trend.

Irrespectively of the cansize our petfoods have a 24 months shelf life from the manufacturing date.

ASPIC Chunks in Jelly

Available cansizes: 200g and 400g.

Available varieties: Beef, Chicken/Turkey, Chicken/Duck, Salmon/Trout.

Our aspic Formula represents a Premium product that combines a complete, high palatable food to the fact that it provides everything the cat requires for its well-being.

The chunks of the Aspic formula do not contain cereals and are embodied in a transparent and tasty jelly.

Typical Analysis	Chunks in Aspic
Moisture	82,0%
Crude protein	9,0%
Crude fat	5,0%
Crude ash	3,0%
Crude fiber	0,5%
Copper Sulphate (Cu)	1,1 mg/Kg
Vitamin A	1.110 UI/Kg
Vitamin D3	140 UI/Kg
Vitamin E	10 mg/Kg

The list of typical ingredients of these products includes, for the different varieties, the following categories: Meat and meat-by products, fish and fish-by products, vegetables, minerals, sugars.

The following feeding instructions, related to the animal body weight, are recommended:

For adult cats (4 kg), with normal activity feed up to 400g per day.

The recommended approximate amount is for adult animals in good health and regular physical activity. These amounts should be adjusted in compliance with the body weight trend.

Irrespectively of the cansize our petfoods have a 24 months shelf life from the manufacturing date.

CHUNKS IN GRAVY

Available cansizes: 200g, 400g, 800g and 1.250g

Available varieties: Beef, Chicken, Duck, Turkey, Lamb, Rabbit, White meat, Salmon, Fish, Beef/Chicken, Beef/Liver, Beef/Turkey, Chicken/Turkey, Lamb/Beef, Beef/Veal, Tuna/Cod, Beef/Vegetables, Turkey/Vegetables, Chicken/Pasta/Vegetables, Beef/Rice/Vegetables.

For adult cats (4 kg), with normal activity feed up to 400g per day.

The recommended approximate amount is for adult animals in good health and regular physical activity.
These amounts should be adjusted in compliance with the body weight trend.

Irrespectively of the cansize our petfoods have a 24 months shelf life from the manufacturing date.

PATE' SINGLE PROTEIN

**Pet Food containing one
single animal protein source**

Available cansizes: 200g and 400g

Available varieties: Duck, Horse, Chicken, Game, Veal/Spinach, Rabbit/Spinach.

Our Single Protein Paté is a Premium product that combines a complete, high palatable food to the fact that it provides everything the dog requires for its well-being.

The Single Protein recipe is the ideal food to be used in a diet "ad exclusion" to identify a potential food intolerance. Once identified the dog can be fed with the total assurance that the unwanted protein source will never be present in the food.

Typical analysis	Single protein
Moisture	81,0%
Crude protein	7,5%
Crude fat	4,5%
Crude ash	2,0%
Crude fibre	0,5%
Copper sulphate (Cu)	2,3 mg/Kg
Vitamin A	1.570 UI/Kg
Vitamin D 3	195 UI/Kg
Vitamin E	15 mg/Kg
Vitamin group B	6,2 mg/Kg

The list of typical ingredients of these products includes, for the different varieties, the following categories: Meat and meat-by products, vegetables, minerals.

The following feeding instructions, related to the animal body weight, are recommended:

Dog body weight [Kg]	Daily amount
5	500g
10	800g
15	1.100g
20	1.350g
30	1.800g
40	2.300g

The recommended approximate amount is for adult animals in good health and regular physical activity. These amounts should be adjusted in compliance with the body weight trend.

Irrespectively of the cansize our pet foods have 24 months shelf life from the manufacturing date.
